Projects

AUTOMATION OF ADACTIN HOTEL BOOKING PAGE;

Automating the Adactin Hotel booking page is a common project undertaken to practice web automation testing. The Hotel website provides a platform for users to search for hotels, select rooms and make reservations. Automating this process can save time and effort in testing the functionality of the website.

Title: 1. OpenCart - Testing Process-Manual-Testing

The OpenCart testing process encompasses defining testing strategies and stakeholders' roles, writing comprehensive test scenarios and cases, and setting up a mirrored production environment for thorough testing. This systematic approach ensures the quality and reliability of the OpenCart platform.
